ABOUT THE PROFILER

The Profiler makes perfectly rounded potatoes. The machine is manufactured with special carborundum and aluminium rollers, providing the perfect combination of fast peeling and a polished end result. When a higher yield is required and the shape is less important, it is possible to peel rounded cubes, also called ‘baby potatoes’.

The Profiler is suitable for peeling the following products:
Potatoes - Carrots - Beetroot - Celery

HISTORY OF FINIS

Since 1924, Finis Foodprocessing Equipment B.V. has been one of the major players in the construction of machinery for the food processing industry. It was always the ambition of Aloisius van Raaij (known as Alois) to amaze the industry with a fresh take on technology with the fastest possible service.

Now a century and 4 generations later, this family business still has the same drive to help and support its customers. With the ambitions from the past, today’s generation and solutions for the future, the entire Finis team provides cutting-edge solutions that enable the company’s customers to stand out in today’s market.

HISTORY OF EILLERT

Through the years, Eillert B.V. has developed into a renowned manufacturer of processing machines and complete production lines for the vegetable sector (potatoes, vegetables and fruit).

The machines and lines are supplied in a range of models and capacities to renowned processing companies worldwide, who in turn supply to supermarket chains, well-known fast-food chains, catering companies and the institutional market as well as the frozen food industry, vegetable dehydration companies, potato and onion peeling companies and other vegetable processing sectors. An extensive network of agents and dealers takes care of customer contact and distributes and services the machines.

COLLABORATION BETWEEN FINIS || EILLERT

Finis and Eillert started working together in 2011. The complementary activities of the two companies have led to a complete line delivery program for the food industry, resulting in clear advantages for our mutual clients. Finis specialises in processing technologies for onions, potatoes and other root products while Eillert concentrates on the processing technologies for (leafy) vegetables.

PROFILING POTATOES

Potatoes - Carrots - Beetroot - Celery

PROFILER

PROFILER

PROFILING POTATOES

TURNKEY SOLUTIONS

We provide turnkey solutions based on your specific needs.

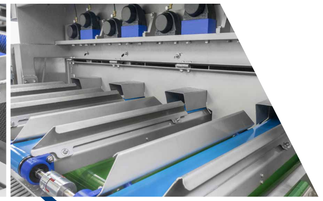

FEATURES

- Combination of carborundum peeling and aluminium profiling rollers
- Open hygienic design with top cover that can be hinged open to access profiling sets for cleaning
- Shaker behind the outfeed belt to separate profiled product and waste
- Integrated waste belt
- Available with 4 or 5 profiling sets

Evenly distributed product thanks to the divideron the infeed

Product outfeed belts with waste belt underneath

Rotating peeling and profiling rollers

The top can be opened for cleaning

PERFECTLY ROUND POTATOES

The Profiler is used to make uniformly round product or rounded cubes (baby potatoes). No water is used, which reduces the production costs.

SPECIFICATIONS

Capacity*:	up to 4,000 kg /h
Available roll sizes:	17, 19, 21, 23, 25, 27, 29, 31, and 35 mm (other sizes on request)
Connection:	400V/50Hz/3Ph+Pe+Pn
Dimensions (LxWxH):	3500 x 2300 x 2400/137$^{4/5}$ x 90$^{1/2}$ x 94$^{1/2}$ inches

* The capacity depends on the type and quality of the raw materials and the desired end quality

OPTIONS

- Infeed shaker unit instead of feed belt
- 2 types of profiling sets to process 2 sizes simultaneously
